

Installation Manual

Notes

- System rating: DC48V
- FOR INDOOR USE ONLY and in dry and dust free spaces. System is rated IP20.
- Do NOT electrically or physically overload system.
- Use only products intended for operation in this track or compatible.
- The 48V cables should be run separately from the mains connections and mains cables to ensure good EMC conditions.
- The 48V DC output wiring should be kept as short as possible to ensure good EMC. The max. secondary cable length is 30m including track lights.

Installation Steps

1. Prior to installing the DC 48V light fittings, please check the installation manuals for Recessed and Surface Mounted / Suspended Tracks.
2. [Click here for DC 48V Recessed Track Installation Manual.](#)
3. [Click here for DC 48V Surface Mounted / Suspended Track Installation Manual.](#)
4. Once the tracks are installed, click-in the required DC 48V light fittings into the track to complete the installation. (See Below Figs).
